A Home Cure Given by One Who Had It

I tried every remedy, but doctor after doctor, but only temporary relief was received. I was only a poor fellow, but I was afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatism to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mark H. Jackson, No. 29C, Gurney Bldg., Syracuse, N. Y.

Miss Ethel Grant Resigns as Secretary to Principal Case—Miss Louise Stabner Appointed to Fill the Vacancy.

The regular monthly meeting of the town school committee was held on Wednesday evening in the office of the selectmen at 8 o'clock. Six of the board were present. The minutes of the last regular meeting were read and accepted. Principal E. A. Case of the high school was present and presented the resignation of Miss Ethel Grant, who has held the position for the past three years. The resignation was accepted and upon the recommendation of Mrs. Case, Miss Louise Stabner was appointed to fill the vacancy at a salary of ten dollars a week.

The Naichau school requested that ten more tables, four sinks, a water heater and a gas range be installed in the school. The matter was turned over to the supply committee with power. At this point in the meeting there was some discussion on the matter of lockers for the high school. Mr. Case stated that he had been trying to devise some means of constructing suitable lockers for the building but as yet had hit upon no plan that seemed advisable. A motion was then made whereby one hundred steel lockers should be installed in the school. This was later amended and it was finally decided that the matter should be given to the supply committee to investigate and report at the next meeting of the board. The principal Case stated that he was sure the time when lockers would be a necessity and if they should be installed at the present time it would do away with the extra expense.

Strike of Ironworkers at Shipyard—Lamb-Hunter Engagement Announced—Great Scarcity of Water in the Village.

About 100 men employed in the ironworking department of the Palmer shipyard struck Monday afternoon for the given reason that they would not work under one of the bosses who was unpopular. The officials refused to discharge him and the men went out. The ironworkers have caused a great deal of trouble through their disposition to strike at every opportunity offered, and as the dislike of the foreman is the only thing offered as an explanation, it is expected the difficulty may be patched up immediately. In the meantime the yard is operating with less than a dozen men in the ironworkers' department. Other parts are unaffected by the strike, but it ties up work on two steamers.
